

HOW TO DETERMINE YOUR KNUCKLE RING SIZE

CONFIRM PRINTED PAPER SIZE:

1. Prior to printing this page, ensure that Page Scaling is set to "None" in your print dialog box.
2. Measure the bar on the right. It must be exactly 1 inch or 30 mm long. Alternately, place a quarter where indicated. The quarter should fit completely over the image so that all lines are covered, without the quarter hanging over any edges.

GENERAL NOTES ON FIRST KNUCKLE SIZING:

If you are generally a medium, a medium should fit one of your fingers, a small should fit one of the fingers of a small hand, etc. Keep in mind that sizing for a first knuckle ring is entirely dependent on the shape of your fingers and which finger you are going to wear it on.

PLEASE NOTE:

This is an approximate guide - sizes vary slightly by style and thickness. Additionally, the shape of your fingers and knuckles greatly determines what size works for you. We cannot guarantee that ring sizing via paper will be accurate. We highly recommend getting sized by a local jeweler. This guide only applies only to First Knuckle Rings made by Catbird.

We've been making First Knuckle Rings since 2008, and we've been wearing them since... forever.
